

# GPA LOGISTIKA Environmental Policy

---

GPA LOGISTIKA understanding the importance of environmental protection, assumes responsibility for the environmental impact of the organization and undertakes to:

- Comply with the legal requirements relating to environmental aspects that are applicable to the company;
- Every year by 2030 yearly increase 5 % number of jobs transported in multimodal manner;
- Constantly monitor and improve the efficiency of environmental protection by the company;
- Reduce CO2 emissions from freight transport activities;
- Involve carriers in the performance of the Environmental Policy;
- Promote proper disposal of waste;
- Involve employees of the company in environmental activities;
- Identify the needs of customers in the field of environmental protection;
- Ensure that the Environmental Policy is accessible to customers, carriers, the public and other interested parties.

## Implementation

In order to implement this Policy, GPA LOGISTIKA will set yearly targets to reduce CO2 from freight transport. This Policy will be updated as necessary.
